

Artwork Requirements

Artwork for paper based printing (business cards, flyers etc.) must be provided in 300dpi PDF or JPEG format on scale to print, with a 3mm bleed on each side. If PDF format is used, please ensure that fonts are embedded.

For PVC printing artwork must be provided at one tenth (1/10) of the final size and a minimum of 300 dpi in either PDF or JPEG format. If PDF format is used, please ensure that fonts are embedded, and if vector is used, fonts must be converted to paths.

Artwork for portable advertising products must be supplied at 72 dpi to scale as a jpeg.

Signage artwork requirements: File to be supplied in the following formats. VECTOR / DXF / DWG / ADOBE ILLUSTRATOR accompanied with a PDF.
